

**Earthquake Information No.: 1**

Date Issued: **August 4, 2019**

Time Issued: **7:58 AM**

Date and Time	04 August 2019 – 07:45 AM
Location	56 km from Basco, Batanes Seismic Station
Magnitude	Ms 1.5
Reported Intensity	Intensity I – Itbayat, Batanes

The figure above shows the recorded earthquake from Basco, Batanes Seismic Station (Station Code: BBPS) on August 04, 2019 07:45 AM. However, the number of available stations that recorded this earthquake is not enough to locate and determine its parameters at the moment.

Based on the difference of the arrival times of the primary and secondary waves, the approximate hypocentral distance of the earthquake is 56 kilometers from BBPS. At this distance, it may be associated with the ongoing aftershock activity of the 27 July 2019 Itbayat, Batanes earthquakes.

This event is reportedly felt in Itbayat, Batanes at Intensity I using the PHIVOLCS Earthquake Intensity Scale.

This will be the only bulletin issued unless additional information becomes available. Always refer to the latest earthquake information posted at the PHIVOLCS official website (<https://www.phivolcs.dost.gov.ph>).
